Power of attraction

Capture looks and captivate - awaken and fulfill wishes. The incomparable DecoLight concept of the Luxura V, unites aesthetics with technology and presents sun shower and tanning studio in a magically alluring blaze of lights. The double doors, with the illuminated handles are simply futuristic. Inside, the power of attraction in the light effects continues with an optimally placed decorative light in the ceiling and ensures an additional sense of well being in the new Luxura V. In order to reduce energy use, the decorative light can also be switched off.

The attractive lighting concept with integrated DecoLight provides an extra sense of wellbeing during the tanning session. And the tanning will look appealing at all times - even in stand-by mode.

Sunrise

Simple and orderly - The digital display on the Luxura V, is very easy to use, as it involves just a simple touch. The fingertip operation makes possible the immediate control over every single adjustable option. The user is free to try out every option for an individual tanning experience. Digital timer display, 2-step adjustable body cooling system, Xsens Aroma option* - here the customer can both wind down and be king.

* optional

Xsens
Fragrant scents is washed into the interior through the ventilation system. Available in fragrances „Citrus“, „Litchi“ or „Ocean“.

True size

The new Luxura V, light concept provides 48 tubes for first-class tanning. The 2-metre long XL or XLC tubes - for that distinctive UVB tanning in the facial area - cosset the tanner according to all the rules of the art of Luxura and guarantee an even, intense tan all over the body. The centrally positioned fan creates pleasant air circulation and ensures a comfortable climate inside the cabin. The two-step adjustable body cooling system brings a Caribbean feeling to the skin. The Luxura V, shows once again what connoisseurs have already appreciated for a long time: Luxura puts tanning guests in a good light.

XL Light
2 m tubes in XL format for a perfect tan.

Sociable.

Seldom necessary - and even so, the Luxora V, is exceptionally service-friendly. Maintenance access on the inside of the sun shower means a minimum of work is necessary for maintenance and care. The door is opened and both the changing of tubes as well as cleaning the acrylic interior, etc. are carried out in seconds. The technical components are clear and arranged in an easily accessible manner. In this way, thorough cleaning is child's play. Hey presto - finished!
